

**Statement of Collaboration
on Global Learning Initiatives Program
between
University of Science and Technology of China
and
Tohoku University**

This Statement of Collaboration is to provide students from University of Science and Technology of China and Tohoku University with the opportunity to connect and study with partner university and engage in global learning experiences through the Global Learning Initiatives Program.

1. Students currently enrolled at both universities are eligible for participating in courses within the Global Learning Initiatives Program.
2. Student screening, course enrollment, attendance procedure, and grade evaluation will be conducted in accordance with the regulations of the partner university. At the end of the course, the partner university will send an official transcript/academic record to the student's home university.
3. Student participation within the Global Learning Initiatives Program shall not in any way affect other programs between both parties, including the quota of student exchange programs.
